Hello Jim and Don,

I spoke with Karen and Mack. We were just trying to establish a single line of communications on this operation – especially considering the fluidity. OCEB Spin is reporting to D/S/Sgty MacAlister.

Subject in Custody.

Pat

I have requested the BOLO for [REDACTED] and his vehicle.
The arrest warrant has been issued.

Hi Karen

The phone was just pinged and the location has him within 8meters of the war memorial
OCEB East is in the area of that location now.

I will call POC to have the BOLO on the vehicle if you wish

HI Robin,

The Deputy is looking to confirm there is a BOLO and the phone is being pinged.

Can you please advise?

Karen

D/SGT WOLFE advised that he 'believed' that it was, but I'm not 100% sure.

Subject: High Risk- Firearms Suspect
Importance: High

Deputy Mackey and Supt Gonneau,

At 4 am on the 17th of February 2022 CBSA and OPP-PWEU executed a weapons importation warrant in the York Region with the assistance of YRPS ERT. Upon entry to the residence it was discovered the suspect was not present. Firearms and ammunition were observed located improperly stored in the residence. A 3D printer was located. The POI had ordered parts to complete a Glock style handgun (the items seized by CBSA). It is believed the may have manufactured frames using the 3D printer. Machetes were located at entry doors. An anti-government/police notice was observed taped to the front storm door (see attachment). The POI. is prohibited firearms. Neighbours indicate he is currently in Ottawa. He is believed to operating a [REDACTED]. A cell phone number for the POI was found on the seized package. It is [REDACTED]. This number has not been confirmed, but I believe an emergency track maybe warranted. It is believed this person maybe a risk to the public an law enforcement officers. The POI is arrestable for smuggling and importing a prohibited device, unlawful possession of a firearm and storage contrary to regulations.

Suspect: [REDACTED]

Further search of the residence has resulted in the seizure of various types of ammunition, shot guns and rifles. A full camouflage suit (similar to those worn by military) was also located along with several silver bars throughout the house including in the freezer. There are no other anti-police/government literature that has been found. There is no further information pertaining to [REDACTED]'s behaviour leading up to this date.

A laptop has been seized by the CBSA and imaged. There are images of a 3D printed Glock. Further downloads on the timestamps will determine when the images were captured. This information will take a few days.

OCEB East is currently trying to located the suspect's vehicle.

The search of the residence is still continuing.
